

## Quick installation guide

1. Insert installation CD into your PC.
2. Wait for the Installation Window to appear on your Main Computer Screen.

3. Double Click “Supporting OS” menu bar to check OS compatibility.  
**Note:** *If your PC has an OS which is not supported, you will not be able to complete the installation.*
4. Double Click “User’s Manual” menu bar to view and/or print the User’s Manual.  
**Note:** *it is recommended that you review this product information prior to installing the Monitor Driver.*
5. Double Click on the “Monitor Driver” menu bar in order to proceed with driver installation.  
**Note:** *Monitor Drivers are also available for download from DoubleSight.com.*
